YOU

+

\$ 1 \$

Per Pay Period

=

\$26

Per Year

YOU can get your co-workers to join you in that pledge!

If **500** CVPH'ers give \$1 a pay period for a year it's

\$13,000

If **1000** CVPH'ers give \$1 a pay period for a year it's

\$26,000

If **2000** CVPH'ers give \$1 a pay period for a year it's

\$52,000

IMAGINE THE POSSIBILITIES!

Donations to The Foundation of CVPH are invested right back into your hospital and your community. The **I Give Campaign** is a CVPH employee's opportunity to take an extra step in improving the health of our region.

This is what Patients First looks like to me.

One particular woman living with COPD had no air conditioner in her home and no relief from the tremendous pressure she felt on her lungs. Day after day, she would come to the Emergency Department in hopes of finding some relief in the cooler, dryer air. It was the only place where she knew they would help her breathe again and she would feel safe. Her care providers quickly realized that a solution to her health concerns would be an air conditioner installed in her home, something that she could not afford on her own. With your Foundation support, she was given a new air conditioner and was able to breathe easy at home through the dog days of summer. It seems simple but it's been a life changing gift for this patient who cried when the air conditioner was delivered. YOU are the reason this patient is now safe at home.

EVERY GIFT MAKES A DIFFERENCE, NO MATTER THE SIZE

Turn in your completed pledge cards to our office in the administration hallway or via interoffice mail to The Foundation of CVPH.

How your support touches lives:

Program and equipment grants to enhance patient care.

Educational support for CVPH employees.

Travel assistance for patients to get needed specialized care.

Assist employees in crisis through the Janice McLean Employee Assistance Fund.

Health education for our community.

Child safety programs for car seats and bicycle helmets.

Resources for patients to enhance stay.

Home health care needs to avoid admission or readmission.
