While cancelling all non-essential surgeries, procedures, diagnostics and physician office appointments is the right thing to do to protect our patients and our staff from COVID-19, we remain committed to providing this community with the health care services in their time of need.

We will continue to provide urgent and emergent surgical procedures and diagnostics. Our plan is to offer limited services in cardiology, radiology, wound care and the laboratory as outlined below:

CARDIOLOGY SERVICES

- **Cardiac Rehab**: Cardiac Rehab has been suspended through April 30th.
- **Non-Invasive Cardiology Services** to include stress testing, echo, holters and event monitors will continue for patients deemed urgent by their ordering provider.
  - All yearly non-urgent echo testing will be rescheduled when COVID-19 concerns have subsided.
  - If stress testing is determined to be non-urgent, they will be scheduled once COVID-19 concerns have subsided.
  - Non-Invasive testing of COVID-19 patients will be limited to POC echo.
- **Invasive Cardiology Services** will remain operational. All outpatient cardiac catheterization procedures will be assessed for urgency by the ordering Cardiologist and a timeline to proceed will be defined.
- **Electrophysiology procedures** will continue on a case by case basis. The ordering cardiologist will determine the timeline most appropriate in which to schedule their patient.

WOUND CENTER

The Wound Care Center will be open only Mondays and Wednesdays. New patient referrals will be triaged by nursing/providers to assess if they need to be seen immediately or can wait several weeks.
March 20, 2020
5pm

RADIOLOGY SERVICES

Radiology sites are rescheduling non-urgent outpatient radiology visits and other non-emergent or elective exams or procedures. Operations will be limited to:

- **Women's Imaging Center:** The Women's Imaging Center will postpone regular screening mammograms until April 30. The Center is open for clinical breast issues as deemed necessary by a provider.

- **Valcour Imaging:** No change in hours of operations; continue to operate regular hours for essential imaging exams only.

- **Open MRI Location:** CLOSED

- **Champlain North (located within Hudson Headwaters):** CLOSED

LABORATORY SERVICES

- **Main CVPH Campus:** Monday-Friday 6am-5pm
- **Medical Plaza Location (89 Plaza Blvd):** CLOSED.
- **Valcour Imaging (16 Degrandpre Way):** Monday-Friday 7am-3pm
- **Champlain North-HHHN:** CLOSED
